Enforcement of Public Health Orders Related to COVID-19

Individuals in San Diego County are currently required to follow Governor Newsom's Executive Orders, the Orders of the State Public Health Office and the County of San Diego Order of the Health Officer and Emergency Regulations. Individuals in San Diego County may also be subject to additional orders issued by incorporated cities within San Diego County if they are located within that city's jurisdiction.

California State Orders

All individuals living in the State of California are currently ordered to stay home or at their place of residence, except for permitted work or other activity authorized by the state guidance.

Regional Stay At Home Order: Effective December 5, 2020, at 12:59 p.m., Californians living in a Region where the adult ICU bed capacity falls below 15% are subject to a Regional Stay At Home Order. San Diego County became subject to the order at 11:59 p.m. on December 6, 2020.

All gatherings with members of other households in the Region are prohibited except as expressly permitted within the Order. This does not apply to persons experiencing homelessness.

All individuals living in the Region shall stay home or at their place of residence except as necessary to conduct activities associated with the operation, maintenance, or usage of critical infrastructure, as required by law, or as specifically permitted in the Order. This does not apply to persons experiencing homelessness.

Worship and political expression are permitted outdoors, consistent with state guidance.

Critical infrastructure sectors may operate in accordance with state guidance. Additionally, state guidance related to schools remains in effect and unchanged.

All retail may operate indoors at no more than 20% capacity. Stand-alone grocery stores where the principal business activity is the sale of food may operate at 35% capacity. All access to stores must be strictly metered to ensure compliance with the limit on capacity. The sale of food, beverages, and alcohol for in-store consumption is prohibited.

Outdoor recreation facilities may allow outdoor operation only, without any food, drink or alcohol sales. This includes exercise facilities such as gyms. Additionally, overnight stays at campgrounds will not be permitted.

Nothing in the Order prevents any number of persons from the same household from leaving their residence, lodging, or temporary accommodation, as long as they do not engage in any interaction with (or otherwise gather with) any number of persons from any other household, except as specifically permitted within the Order.

Except as otherwise required by law, no hotel or lodging entity in California shall accept or honor out of state reservations for non-essential travel, unless the reservation is for at least the minimum time period required for quarantine and the persons identified in the reservation will quarantine in the hotel or lodging entity until after that time period has expired.

Face coverings: Pursuant to the California Department of Public Health Face Covering Guidance, individuals, except for exempted individuals, are required to wear masks in the following situations:

People in California must wear face coverings when they are outside of the home, unless one of the exemptions below applies.

Individuals are exempt from wearing face coverings in the following specific settings:

- Persons in a car alone or solely with members of their own household.
- Persons who are working in an office or in a room alone.
- Persons who are actively eating or drinking provided that they are able to maintain a distance of at least six feet away from persons who are not members of the same household or residence.
- Persons who are outdoors and maintaining at least 6 feet of social distancing from others not in their household. Such persons must have a face covering with them at all times and must put it on if they are within 6 feet of others who are not in their household.
- Persons who are obtaining a service involving the nose or face for which temporary removal of the face covering is necessary to perform the service.
- Workers who are required to wear respiratory protection.
- Persons who are specifically exempted from wearing face coverings by other CDPH guidance.

The following individuals are exempt from wearing face coverings at all times:

- Persons younger than two years old. These very young children must not wear a face covering because of the risk of suffocation.
- Persons with a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance. Such conditions are rare.
- Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
- Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.

Note: Persons exempted from wearing a face covering due to a medical condition who are employed in a job involving regular contact with others must wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge, as long as their condition permits it.
